*The ranking by National Real Estate Investor is based on volume of office space owned globally, as of December 31, 2017. The results were generated from a survey conducted by National Real Estate Investor based on a combination of advertising and website promotion of the survey, direct solicitation of responses from participants, direct email to National Real Estate Investor subscribers and other identified office owners and daily newsletter promotion of the survey, all supplemented with a review of public company SEC filings.

Disclosures and Risks Related to an Investment in KBS Growth & Income REIT

The offering of shares of KBS Growth & Income REIT is made to “accredited investors” (as defined in Rule 501 of Regulation D of the Securities Act of 1933, as amended) only in reliance upon the availability of an exemption from registration provisions of the Securities Act and Rule 506(c) of Regulation D. Neither the Securities and Exchange Commission (the “SEC”) nor any state securities authority, has approved or disapproved of these securities or passed on the adequacy or accuracy of the KBS Growth & Income REIT’s Private Placement Memorandum (the “PPM”). Any representation to the contrary is a criminal offense.

Investing in KBS Growth & Income REIT includes substantial risks. These risks include, but are not limited to: the possibility of losing your entire investment; no guarantees regarding performance; upon sale or distribution of assets you may receive less than your initial investment; fluctuation of the value of the assets owned by KBS Growth & Income REIT; lack of a public market for shares of KBS Growth & Income REIT; limited liquidity; limited transferability; reliance on KBS Capital Advisors LLC, the REIT’s advisor, to select, manage and dispose of assets; and various economic factors that may include changes in interest rates, laws, operating expenses, insurance costs and tenant turnover. Shares of KBS Growth & Income REIT are not suitable for all investors. Investors should read and consider the PPM carefully before investing.

KBS Growth & Income REIT may fund distributions from any source including, without limitation, from offering proceeds or borrowings. Distributions have been funded in part with cash flow from operating activities and part with debt financing, including advances from the REIT’s advisor. Distributions funded from sources other than the REIT’s cash flow from operations will result in dilution to subsequent investors, reduce funds available to make real estate investments and may reduce the overall return to the REIT’s stockholders. There are no guarantees that KBS Growth & Income REIT will pay distributions.

KBS Growth & Income REIT pays fees to KBS Capital Advisors and its affiliates in connection with the management of the REIT’s investments that are based on the cost of the investment, not on the quality of the investment or the services rendered to the REIT. These fees reduce the amount of cash available for distribution to stockholders. The REIT may also pay fees during its liquidation stage. KBS Capital Advisors and its affiliates, and KBS Growth & Income REIT’s executive officers, its affiliated directors and other key professionals face conflicts of interest, including significant conflicts created by the advisor’s compensation arrangements with the REIT and other KBS-sponsored programs and KBS-advised investors. Although the REIT has adopted corporate governance measures to ameliorate some of the risks posed by these conflicts, these conflicts could result in action or inaction that is not in the best interest of stockholders.

KBS Growth & Income REIT may make adjustments to its target portfolio at any time without the consent of its stockholders, which could result in the REIT making investments that are different from, and possibly riskier than, the investments described in the PPM.

KBS Growth & Income REIT uses debt in connection with its investments, which increases the risk of loss associated with these investments and could hinder its ability to pay distributions to its stockholders or could decrease the value of its stockholders’ investments if income generated by, or the value of, the property securing the debt declines.

If KBS Growth & Income REIT does not raise significant proceeds in this offering it will be limited in the number of investments it makes; the value of an investment in the REIT will fluctuate with the performance of the specific assets the REIT acquires; and the REIT’s general and administrative expenses will constitute a greater percentage of its revenue.

KBS Growth & Income REIT elected to be taxed as a REIT beginning with the taxable year ended December 31, 2015. Should KBS Growth & Income REIT not qualify as a REIT, it may be subject to adverse tax consequences. Please refer to the PPM for more detailed information regarding these consequences.

KBS Growth & Income REIT has a limited operating history and as of December 11, 2017 owns four office buildings with an aggregate cost basis of approximately \$193.9 million.

KBS Growth & Income REIT’s primary offering price per share may not be indicative of the price at which its shares would trade if they were listed on a national securities exchange or actively traded. The offering price is equal to the estimated net asset value per share of the REIT’s common stock established by its board of directors and was determined by dividing the REIT’s estimated net asset value by the number of shares outstanding as of a particular point in time.

Proven Real Estate Operating Firm

Industry leaders Peter M. Bren and Charles J. Schreiber, Jr. formed KBS Realty Advisors, an SEC Registered Investment Adviser, in 1992, which established the basis for today's family of KBS-affiliated real estate companies. Since that time, KBS-affiliated entities have invested in and managed commercial real estate assets on behalf of clients that include large institutions, such as public and private pension plans, endowments, foundations, sovereign wealth funds and seven public non-traded real estate investment trusts (REITs). Large institutional investors have invested with KBS because of its record of identifying opportunities in the real estate cycle as well as specific regions and buildings with the goal to manage and add value to enhance return.

KBS by the Numbers^{1,2,3}

¹Information on this page as of September 30, 2018, for all equity and debt assets for all KBS-affiliated entities and not specific to any KBS-advised investor or KBS-sponsored program.

²These figures include those from five KBS-advised investors where, pursuant to management agreements and partnership agreements, the KBS-advised investors were permitted to reject acquisitions recommended by the KBS-affiliated advisor. Since inception, for these five investors, \$4.4 billion of real estate properties has been invested, managed or owned, and 236 asset acquisitions (encompassing 30.5 million square feet) and 233 asset dispositions (encompassing 29.6 million square feet).

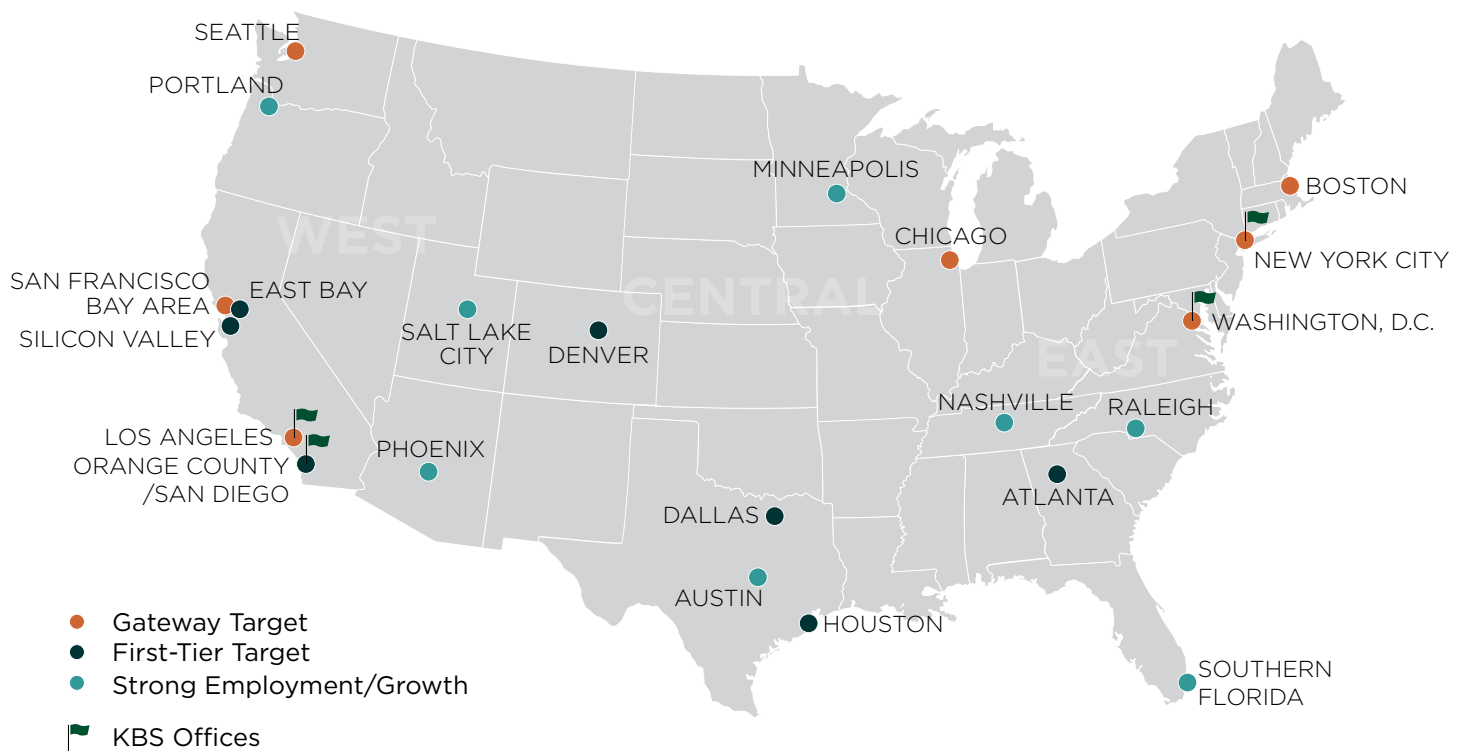

³Transactional volume includes purchase price of assets acquired plus sales price, transfer price or payoff proceeds of asset dispositions through September 30, 2018.

⁴For the five discretionary investors, funds containing 13.1 million square feet had gone full-cycle.
